

INSTRUCTIONS FOR USING THE SYSTEM

To work with the system:

1. To scroll through the modules and data elements, click on the categories listed in the menu bar on the left
2. An overview of the structure and contents can be found under 'Overview'
3. To view templates, listing instructions for data collection, click on the modules/elements in the overview.
Please note that linking may not work when using other platforms than Windows.

Note: the common data elements are under continuing development. This presents the beta-version. We are currently working on a web-based format for data collection. Your feedback on this beta-version is greatly appreciated.

Feedback can be sent by email to andrew.maas@uza.be.
