considered intracranial surgery.

## SURGICAL THERAPY

Cranial	Day	Month	Year	Time start (HH:MM)	Time end (HH:MM)	Surgery code(s): 1,3
Surgery 1:						
Surgery 2:						
Surgery 3:						
Surgery 4:						
Surgery 5:						
Extranial	Day	Month	Year	Time start (HH:MM)	Time end (HH:MM)	Surgery code(s): <sup>2, 3</sup>
Surgery 1:						
Surgery 2:						
Surgery 3:						
Surgery 4:						
Surgery 5:						
1 Cranial Surgery codes 01= aneurysm (non trauma) 02= acute subdural hematoma 03= contusion 04= craniofacial surgery 05= CSF shunt 06= chronic subdural hematoma 07= decompressive craniectomy 08= depressed skull fracture 09= epidural hematoma 10= intracerebral hematoma 11= infection 12= optic nerve decompression 13= posterior fossa surgery 14= skull base fracture 15= ventriculostomy for CSF drainage 16= debridement – minimal for penetrating injuries 17= debridement – extensive for penetrating injuries 18= foreign body removal 19= bone flap replacement 20= cranioplasty 21= other:				<sup>2</sup> Extracranial Surgery codes 21= maxillofacial 22= extremity fracture lower limb (internal fixation) 23= extremity fracture lower limb (external fixation) 24= extremity fracture upper limb (internal fixation) 25= extremity fracture upper limb (external fixation) 26= fasciotomy 27= laparotomy (abdomen) 28= pelvic fracture (internal fixation) 29= pelvic fracture (external fixation) 30= spinal stabilisation/cervical 31= spinal stabilisation/thoracic 32= spinal stabilisation/lumbar 33= thoracotomy 34= tracheostomy 35= vascular (operative) 36= vascular (endovascular treatment) 37= wound closure/graft 38= other:		
Note: implantation of a ventricular catheter or parenchymal catheter solely for the purpose of monitoring is not				<sup>2</sup> <b>Note:</b> percutaneous placement of a gastric tube (PEG) or urinary catheter is not considered extracranial surgery.		

surgery.

Neither is placement of a chesttube considered extracranial

<sup>&</sup>lt;sup>3</sup> Add +5 to the first digit of surgery code to indicate repeat procedure, e.g.: the first operation for an acute subdural hematoma will be coded 02, a second procedure for a recurrent subdural: 52

## **ICP MONITORING**
